

## **Diesel Generator Pre-Order Checklist**

- The local fire marshal has confirmed that the generator must be located a minimum of \_\_\_\_\_ feet from a house or other structure.
- The local AHJ has advised me regarding the requirements for electrical and/or building permits, as well as those regulations relating to emissions and fuel storage.
- I have been advised of the local requirements for construction of a concrete base pad, and whether anchoring requirements are needed for installation on a flood plain.
- I have confirmed with the appropriate authorities that the generator must be located a minimum of \_\_\_\_\_ feet from a property line.
- I have been advised whether the local fire marshal (or other third party) is required to be present at start up.
- I have confirmed that the installation site is applicable to optional standby only and does not require an NFPA 110 capable generator.
- The local fire marshal has confirmed that I am required to extend the fuel tank vents \_\_\_\_\_ feet above the surrounding grade.
- The local fire marshal has confirmed that local codes require installation of the diesel product safety accessories designated below.
