

LP SERIES

GENERAC®

LP3250 PORTABLE GENERATOR

Breakthrough Design in Portable Propane Backup Power

Generac's LP3250 is the first portable propane generator to bring together the benefits of liquid propane with an easy-to-transport design. The result is a surprisingly compact and easily maneuverable portable generator ideal for a variety of uses.

Until now, the only options available required the propane tank to be separately carried, where it would then sit to the side of the generator while in use. The LP3250 incorporates a tank holder into the frame itself, so the standard size 20 lb propane tank sits securely out of the way. It eliminates the hassle of a stand-alone tank and the awkward fuel line that goes along with it.

Take the LP3250 along for outdoor events, camping or job site use, or use it around the home for projects and emergency backup.

The Benefits of Liquid Propane

As consumers become more conscious of their green footprint, they look for ways to use less fossil fuel, but ideally not at the expense of convenience. For many applications, propane is the answer.

Benefits include:

SAFE, STABLE, LONG SHELF-LIFE - Unlike gasoline, it can be stored indefinitely without deterioration, and safely transported without spillage.

READILY AVAILABLE - Used by millions to fuel everything from furnaces to grills to fleet vehicles.

LOWER EMISSIONS - Emits low carbon monoxide and hydrocarbons and fewer toxic pollutants than gasoline. Non-toxic and biodegradable.

JOB SITE • OUTDOOR EVENTS • HOME USE • CAMPING

LP3250 PORTABLE GENERATOR SPECIFICATIONS

	LP3250
Model #	6000
Running Watts	3250
Starting Watts	3750
Engine Size	212cc
Engine Type	Generac OHV
Low-Oil Level Shutdown	Yes
Starting Method	Manual / Pull
Covered Outlets	Yes
Outlets	(2) 5-20R (20 Amp) 120V (1) L14-20R (20 Amp) twist-lock
Fuel Tank Type and Size	20 lb propane tank (sold separately)
Run Time at 50%	9.0 hours
Handles	Dolly-style, folding, locking
Wheels	9.5" Centerline style
First Oil Included	Yes
Emission Certified	EPA - 49 States
Warranty	2 Yr. Residential 1 Yr. Commercial
Dimensions (Handle down)	39.5" x 23.5" x 24.75"
Product Weight (without LP tank)	137

*All portable specifications and models subject to change.
Please consult factory for availability.*

TANK FEATURES:

- **Integrated fuel tank holder** secures 20 lb LP tank to unit for easier and safer transportation
- **20 lb tank provides 9.0 hour runtime**, comparable to runtime of same size portable gasoline generators
- **Conveniently located fuel line** quickly connects to standard size LP tanks

GENERATOR FEATURES:

- **Dolly-style handles and low grab bar** increase maneuverability; handles fold down for compact storage
- **Wheel kit included**
- **Hardened-steel tube cradle** is a rugged 1 1/4" diameter
- **Low-oil pressure protection** safeguards the engine from damage
- **Covered outlets** are protected from the elements
- **Circuit breakers** provide overload protection
