

GENERAC® ACCESSORIES

Nexus™ Wireless Monitor

DESCRIPTION

The Nexus $^{\text{\tiny TM}}$ Wireless Monitor provides truly wireless in-home generator status. About the size of a credit card, this battery operated wireless device makes monitoring your generator easy and convenient.

*This system is only compatible with air-cooled and liquid-cooled models that utilize the Nexus digital control panel. It is not compatible with all liquid-cooled models.

FEATURES

- · Compact, sleek design
- · Magnetic back for refrigerator mounting
- Red, yellow and green status indicator LEDs
- "Chirp" function to alert owners when the generator needs attention
- Area for dealer contact information on the rear panel
- Tooless battery cover for easybattery replacement
