

Dual Fuel Series

Portable Generators

Powermate

Power. When you need it.

Dual Fuel Series

Portable Generators

Flexible fueling.
DEPENDABLE POWER.

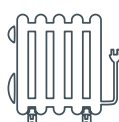

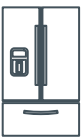

Capable of operating on liquid propane (LGP) or gasoline, Powermate's Dual Fuel Series portable generators provide flexible fueling options for your portable power needs.

Featuring longer run times than competitive units, Powermate's Dual Fuel Series boasts innovative features that create a seamless user experience.

These products provide reliable power for a variety of occasions:

- Camping trips
- Outdoor events
- RV road trips
- Emergency home backup

Whether you're at home or on the road, trust in the flexible fueling options of Powermate's Dual Fuel Series to accommodate your portable generator power needs.

Dual Fuel Series

Portable Generators

The best of both worlds. Powermate's Dual Fuel Series portable generators offer the convenience and versatility of liquid propane (LPG) or gasoline.

Folding handles
For compact storage—
comfort grip for easy mobility

Fuel gauge
Displays gasoline
level at-a-glance

Fuel selector dial
Easily switch between
gasoline and propane

Digital multi meter
Tracks engine
runtime for required
maintenance

Powermate OHV engine
Provides reliable power for
extended run times

Low oil shutdown
Monitors the oil level to
prevent potential damage

Never-flat wheels
Easily travel over
rough terrain

Product Weight (lbs)	118.2	200.2
Warranty - Residential	2 Year Limited	2 Year Limited
Warranty - Commercial	1 Year Limited	1 Year Limited

How much POWER do you need?

Sizing a portable generator is easy. Check out this sample:

- 1 Choose which devices you want to power at the same time.
- 2 Record and add the running watts listed for each device that you need to power.
- 3 Record the starting watts listed for each device.
- 4 Select the one device with the highest starting watts. Add that number to the total running watts to determine the total wattage requirement.

Device	Running watts	Additional starting watts	GENERATOR SIZE Minimum starting watts for your needs  5250 starting watts
Refrigerator	700	2200	
Sump Pump	1050	2150	
Microwave	1000		
Lights	300		
TOTAL	3050	+ 2200 =
