

GENERAC® ACCESSORIES

Nexus™ Wireless Monitor: Advanced

Model 005951-0

Model 005959-0 Harness Adapter Kit required for use with liquid-cooled units with Nexus Controller

DESCRIPTION

The Nexus™ Wireless Monitor: Advanced provides remote monitoring capability for convenient indoor observation. By adding this item a generator owner can observe generator function, set certain operation parameters and receive maintenance reminders. The kit includes the wireless transmitter, wire harness connection, remote monitor display unit, desk mount/wall mount cradle, 120V AC plug and 3 AAA batteries. The addition of battery back-up ensures lasting operation.

*This system is compatible with air-cooled and liquid-cooled models that utilize the Nexus™ digital control panel, as well as air-cooled product that utilizes a 2008 or newer LCD style controller. It is not compatible with all liquid-cooled models or non-Nexus™ 8kW models.

FEATURES

- Sleek, ergonomic case design
- Advanced membrane keypad
- Orange alert LED
- Backlit screen for easy viewing
- Desk or wall mountable cradle

FUNCTIONS

- Permanent time/date stamped history of generator alarms
- Display generator faults and warnings
- Allows for remote testing of generator start and transfer functions
- Remote setting of exercise time and day
- Offers the ability to monitor utility voltage
- Graphing capability for trending of engine RPM, Utility Voltage and Battery Voltage
