RCA Generators
14 kW, 20 kW, 26 kW
| Home Generators
**Reliable Home Standby Power**

Our 14-, 20-, and 26-kW RCA generators offer quiet, reliable performance to power your home.

**PowerBoost™ Technology**

Only Kohler has PowerBoost™ technology which enables our RCA generators to accept heavy loads (like air conditioning or sump pump) without dropping power to other loads in your home. In addition, KOHLER® generators will have your home powered within 10 seconds of an outage.

**Commercial-Grade KOHLER Command PRO® Engine**

Every KOHLER® RCA generator features a heavy-duty engine built to exceed the demands of standby power. The generators are built with hydraulic valve lifters to eliminate need for lengthy break-in periods and expensive valve adjustments.

**Easy to Install and Maintain**

A simple terminal block helps streamline installation. The RCA line of generators accommodates natural gas fuel pressure as low as 3.5 inches to eliminate expensive gas service upgrades.

**Toolless Access in 10 Seconds**

The corrosion-resistant enclosure is designed to reduce time required to service the generator. Once the lid is unlocked, in less than 10 seconds you have full access to key components for scheduled maintenance or service. The enclosure is also NFPA 37-compliant to have an 18-inch setback from any structure.

**Get Connected**

Connect your generator to the Internet to get peace of mind in the palm of your hand. Whether you’re home or on the go, Kohler’s mobile app will let you monitor your generator system anytime from anywhere and get instant updates via text or email.

**Premium Warranty**

You get our 2,000-hour, five-year premium limited warranty, covering parts, labor, and dealer travel for the full warranty period. Optional extended warranties are also available.

---

**26-kW Home Generator**

Introducing the KOHLER® 26-kW generator—the quietest, most durable, and most powerful air-cooled generator on the market.

- **Ultra Quiet**
  - The 26 RCA exercises at the volume of a conversation (56 dBA)—perfect for areas with stringent sound requirements.

- **Most Powerful**
  - In addition to featuring PowerBoost technology, it is rated at 109 Amps (LP) to power more in your home.

- **Exceptionally Durable**
  - The 26 RCA includes oil-level and oil-pressure sensors to protect your engine if your generator needs to be left unattended during extended power outages.

---

**Blend in or Stand out.**

Customize your generator with ten new colors and three camouflage patterns. KOHLER® 14- to 26-kW RCA generators can now match your style to complement the color of your home or stand out to make a statement—only available with Kohler.
