ELECTRIC GENERATOR

IMPORTANT – Please make certain that persons who are to use this equipment thoroughly read and understand these instructions and any additional instructions provided prior to operation.

MAJOR GENERATOR FEATURES

- * 5 HP Robin OHC engine
- * Receptacles on control panel
- * Brushless generator

CONTROL PANEL

A. 120 Volt GFCI Receptacle

Ground Fault Circuit Interrupter duplex receptacle is rated so that a total of 20 amps may be drawn regardless of whether both halves or just one receptacle is used. This receptacle may be used along with other receptacles provided the generator is not overloaded and total power drawn is kept within nameplate ratings.

Ground Fault Circuit Interrupter

(Conforms to U.L 943, Class A and NEC requirements)
This device protects you against hazardous electrical shock that may be caused if your body becomes a path through which electricity travels to reach ground. This could happen when you touch an appliance or cord that is "live" through faulty mechanism, damp or worn insulation, etc.

B. Circuit Breakers

The receptacles are protected by an AC circuit breaker. If the generator is overloaded or an external short circuit occurs, the circuit breaker will trip. If this occurs, disconnect all electrical loads and try to determine the cause of the problem before attempting to use the generator again. If overloading causes the circuit breaker to trip, reduce the load. **NOTE: Continuous tripping of the circuit breaker may cause damage to generator or equipment.** The circuit breaker may be reset by pushing the button of the breaker.

LIMITED WARRANTY (NOT VALID IN MEXICO)

This product is warranted by Coleman Powermate, Inc. to the original retail consumer against defects in material and workmanship for a period of two (2) years from the date of retail purchase and is not transferable. This two year warranty applies only to products used in consumer applications. If this generator is used in a commercial application, then the period of warranty coverage is limited to one (1) year from the date of purchase.

Please complete and return the enclosed Customer Information Card so that we can reach you in the unlikely event a safety recall is needed. Return of this card is not required to validate this warranty.

WHAT IS COVERED: Replacement parts and labor.

WHAT IS NOT COVERED: Transportation charges to Coleman Powermate, Inc. for defective products. Transportation charges to consumer for repaired products. Brushes, fuses, rubber feet, and receptacles. Damages caused by abuse, accident, improper repair, or failure to perform normal maintenance. Power units or engines which are covered exclusively by the warranties of their manufacturer. Sales outside of the United States or Canada. Any other expense including consequential damages, incidental damages, or incidental expenses, including damage to property. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

IMPLIED WARRANTIES: Any implied warranties, including the Implied Warranties of Merchantability and Fitness For A Particular Purpose, are limited in duration to one (1) year from the date of retail purchase. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

HOW TO OBTAIN WARRANTY PERFORMANCE:

Replacement parts and service are available from Coleman Powermate, Inc. Service Centers. Locate your nearest Service Center by calling TOLL FREE 1-800-445-1805. In the unlikely event a Service Center can not be located you may call Coleman Powermate, Inc. for a return authorization number. **Any unit returned WITHOUT an authorization number will be refused.**

To the extent any provision of this warranty is prohibited by federal, state, or municipal law, and cannot be preempted, it shall not be applicable. This warranty gives you specific rights, and you may also have other rights which vary from state to state.
