

Cold Weather Kits

GENERAC® PROTECTOR DIESEL GENERATOR ACCESSORIES

Model G007650-0 (15 & 20 kW)—UPC: 696471073218
 Model G007651-0 (30 kW)—UPC: 696471073249
 Model: G007652-0 (48 & 50 kW)—UPC: 696471080940

Battery Warmer

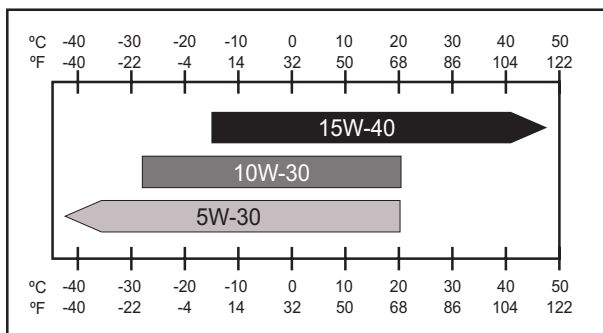

Engine Block Heater

DESCRIPTION

The Cold Weather Kits consist of a block heater with all necessary mounting hardware, a battery warmer with a thermostat built into the battery pad, and a one year limited warranty. When temperatures fall below an acceptable level, the thermostat activates the battery warmer maintaining optimum battery temperature for the best generator starting. These kits are recommended for generators installed in regions where the temperature regularly falls below 32 °F (0 °C). When installing a cold weather kit, it is required to replace the engine oil with the proper grade oil according to the oil viscosity chart shown below. Synthetic oil will provide better cold starting capability over conventional oil.

Item	Accessory	Voltage	Watts	Amps	Turns On	Turns Off
All	Battery warmer	100 – 120	75	0.63	40°F (4.4°C)	55°F (12.8°C)
G007650-0	Block heater	100 – 120	1000	8.3	60°F (15.6°C)	80°F (26.7°C)
G007651-0 G007652-0	Block heater	100 – 120	1500	12.5	60°F (15.6°C)	80°F (26.7°C)
